Annual Report FY2025

Community Builds Strength

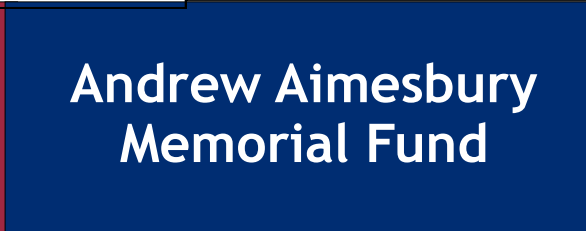

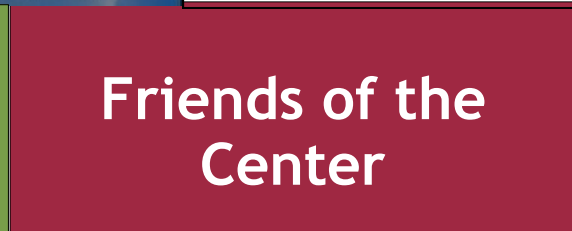

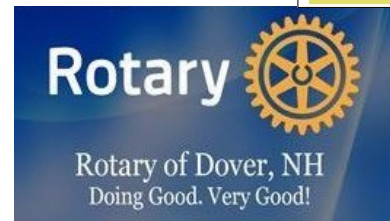

The path our students follow contains hurdles, setbacks and unexpected challenges. They rely on the support of family, friends, teachers and learning center staff to help them reach their goals.

Like adult learners, DALC also relies on a network of local businesses, community organizations and individual donors to help us meet our mission of ensuring everyone, at any age or stage can access the education they need.

Shifting state and federal funding priorities mean that our community partnerships and individual donors are more critical than ever.

Thank you for helping to build the foundation upon which our and our students' success is sustained!
